

Year 6 Curriculum Update

December 2023

Values: Understanding and Responsibility

Madley Enterprise

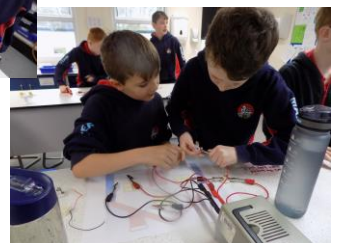

Over the last few weeks, Year 6 have been extremely busy visiting different local businesses and developing their own business as part of this year's Enterprise project. We would like to thank the staff at Madley Plants, Certainly Wood, Oakwrights, Allensmore Nurseries and Border Office Supplies for welcoming the children and sharing their expertise with the budding entrepreneurs

The children have had the opportunity to sell the products that they have been making, at Love Local and at the recent Christmas Fayre. These experiences gave those involved the chance to develop their customer service and their mathematical skills.

Science workshop at Fairfield High School

Throughout the half-term, Year 6 have been looking at two different aspects of the science curriculum: using dichotomous keys to identify different invertebrates at Forest School and learning more about electricity and electrical circuits within school. The children also visited Fairfield High School, where Mrs Kerr set them a variety of challenges related to how they set up and changed the components within a circuit.

*Wishing you all a very Merry Christmas and, as always, please do get in touch if you have any Questions or concerns in the term ahead.
Kind regards, Mrs Lacey & the Year 6 team.*

Dates for the diary

Weds 17 th Jan	- Visit to EnviroSort
Thurs 25 th Jan	- Young Voices Concert
5 th Feb – 9 th Feb	- Dale Fort Residential
