

What has worked well?

Leisure Centre –we got to do gymnastics and use the athletics facilities.

Rugby – because it was fun and we improved at sprinting and dodging.

Plant Competition – we learned lots about plants and it helped us with our theme and we won!

Mosaic leaves – successful and they made us work carefully.

Reading with Mrs Fleming – we have improved and tried harder books.

Learning about LS Lowry – we saw some of his paintings and found out a lot about him.

Foil sculptures - we all made them carefully and they looked really good.

What has challenged you?

Learning the higher times tables.

PE – doing laps around the bark path is hard work.

Learning division in maths.

Throwing the javelin at the Leisure Centre.

Fractions has been really hard!

Learning different keys and following the beat in ukulele.

Putting all the mosaic pieces in the right place when we made our mosaic leaves.

What has surprised you about your theme?

That there are so many different sports that we had never heard of!

To discover how quickly our marigold plants grew.

How much care we need to give to growing our plants.

With our celery experiment we were surprised to discover that the celery would suck up the food colouring in the water.

Also we were surprised by the runner beans still growing in the dark.

What helped you learn?

Mrs. Fleming helps us by explaining the task again.

Watching examples of what we have to do.

Using practical resources such as counters and cubes.

Even better if...

Having a go at a wider variety of sports.

Going on more educational visits.

What has been the most memorable aspect of your learning?

Visiting the Leisure Centre

Rugby

PE lessons - running

Archery

Walks in the forest

Learning how to build stone
bridges at Forest School

Learning about different plants

Designing a bike for Mrs Armitage

Writing versions of stories
