

Curriculum update

7/12/20

Independent children...

This will be our last challenge of the term so let's make it the best one yet!

I would like you to take responsibility for part of making your meal time. This could be: peeling and chopping up some vegetables, making toast at breakfast time, portioning out dinner, making a desert, pouring a drink for everyone at the dinner table or taking a greater role in preparing the food. Please send in all of your photos and let's make this the best one for the end of term! Thank you!

Talent show

Next week, there will be an in class talent show. Anybody can show a special talent that they have such as: singing, dancing, re-telling a story, telling a joke etc. The winner from our class will then go up against the rest of the winners from the other classes via Microsoft Teams. Whoever gains the most votes, will then be the winner across the school! So get practicing at home, we can't wait to see your amazing talents!

Christmas Party

Our Christmas Party will be taking place on Thursday 17th December in school. Thank you for contributing £1 to allow us to buy some party snacks. The children will have lunch as normal so it will just be a small plate of special snacks in the afternoon to accompany our games and party. The children are allowed to wear special party clothes but please bear in mind that they will be going outside to play on the field in these clothes so they need to be sensible (I would recommend staying away from white as the field is particularly muddy). As well as sensible clothes, please ensure that your child is wearing sensible shoes too! We are really looking forward to celebrating with a special party on Thursday 17th December 2020.

Dates for your diary

Christmas dinner – Wednesday 9th December 2020

Forest School as normal Monday 14th December 2020 (this will be on site)

Christmas party – Thursday 17th December 2020

Last day of term – Friday 18th December 2020

Nativity

We are still celebrating Christmas through our Christmas Nativity. We have been learning the Christian story of Christmas and have talked about how this is why some people think we celebrate Christmas.

We are 'putting together' a Christmas Nativity with help from the whole school. Each class will participate by: filming, writing the script and singing. Then we will be performing the Nativity! This is going to be filmed and shared on Madley TV before the end of term. We have been practicing over the past week and the children can't wait until we put our costumes on for our 'real performance'.

Maths

Last week in Maths we opened up our very own Class R shop! The children loved learning about the coins and their values. We learnt that by adding coins together the total got bigger and then (most importantly) we could buy more from the shop. The children worked really hard to order the coins by value and compare the value of the coins too.

I will not be in school Monday, Tuesday or Wednesday next week as I am undergoing a small procedure. I will share this with the children and re-assure them that they will be supported by: Mrs White, Mrs Woodall and Mrs Richards who are all in our class bubble already. I am hoping to return by the end of week so we can finish our first term together!
