

Short burst - June 1st

Please find attached a photo taken by one of our pupils on a recent walk.

We thought we would use it to inspire your writing.

Descriptive writing - sentences, words or paragraphs describing the scene. The sound of the hooves etc.

You could just start with a word and build sentences around it.

You could use the words to develop lines which then form a poem (doesn't have to rhyme or have too much structure).

You could write a story about horses. Why are they running wild ? Is there one particular horse you could focus a story around ? What is the connection between the photographer and the scene ? Why were they there ?

Good luck and please share your writing with us.
