

WFH - Wednesday 22nd April - quick update

Hello all,

The earlier updates had quite a few ideas so no more today (actually there are a few at the end as I couldn't resist !).

Teachers have put their curriculum updates on the school website under 'children' - top menu - then 'class pages' and then you will see a star with 'Working from home' - you will find all of the updates on that page (Year 2s is at the bottom). We have agreed that the teachers will post a new update every Tuesday on the website.

OFSTED - you may have seen on social media a variety of spoof OFSTED judgement posters and reports about home learning, worth a read as they are very clever. Some parents are even posting OFSTED judgement posters in their windows !!

Resources - not everyone has a printer, not everyone has an endless supply of paper and not everyone has everything at home that they might need. From Monday we will put some envelopes of paper in the entrance hall IF you want to replenish supplies (one envelope per child). Please make the best of what you have and do what you can.

We love seeing your work either via e-mail or on Twitter so please keep it coming.

School adults are still busy either in school or at home, we are putting together a few challenges for you over the next few weeks (don't worry we aren't planning to sing, do a Tick Tok or anything too cringy !).

Year R - Miss Paton is going to put together a story video each week and then all of your work will come from that. You can also do some of the other WFH work as well. We will also share your re-vamped classroom.

Years 1 - 5 - keep practising all of those key skills and build up that knowledge ! Hopefully you will be working on your new theme or a project. It is a good time to learn things like all the countries and capitals as well as flags of the World. Who were all the kings and queens of England or learn something completely new like a language).

Year 6 - it is really important that you don't think you have 'left' primary school yet and that you keep working. You need to be able to 'hit the ground running' when you start high school so please make sure you are doing **ALL** of the work that Mrs Lacey has set for you (as she is tracking everything) and make sure you have a project on the go (your 'film' theme is a wonderful opportunity to really explore lots of different things. Could you also focus on one famous person to do with film, theatre or the drama and complete a separate project on them (Why were they famous ? What impact did they have ?). You could also produce your own documentary of the current time - research/script/film/edit/publish etc).

PE challenge - balloon (if you have one) keepy ups either with hands or feet or both then you can progress to a ball or a toilet roll.

Bizarre challenge - 101 uses for a toilet roll (and not the obvious) - as they have turned into pieces of art and various other things. Don't waste them but send in any pictures of your most inventive ideas or use (and not the obvious !).

All the very best to everyone.

Kind regards

Mr Batstone
