- PAGE 15-Xbox series X by Josh Boast

**Zao Organic  
Make-Up....  
the new  
sustainable  
make-up  
brand that's  
putting a glow  
on our faces!**

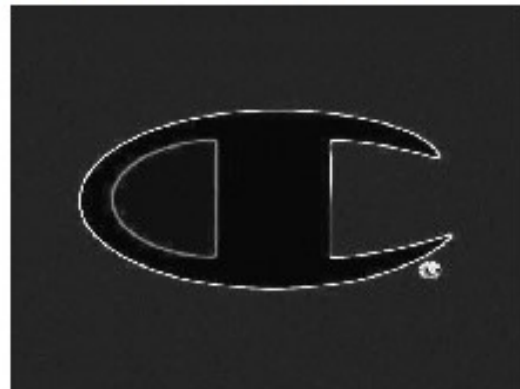

You probably haven't heard of the make-up brand Zao Organic Make-Up, and that's because it's a brand new sustainable make-up brand. It was founded by four friends David Reccole, Fileppe Donnat, Yvan Rouvier and Salima Macozzi Reccole. It offers an organic, sustainable, vegan and cruelty free make-up collection and comes in refillable bamboo packaging- what's not to like? Zao also has a whopping 11500 followers on Instagram. It has been recommended by high profile celebrities such as Sigrid and Anne Marie.

We have tested out some of the products including the Brown Beige Compact Powder which set make-up really well and lasted all day! The Clear Beige Concealer was so nice to apply and covered dark circles and spots amazingly! The last thing we tried out was the Lip Polish which has apricot kernel as one of it's ingredients - it was so easy to apply and gave a fabulous luminous colour. All in all we think Zao Organic Make-up is not only great for the planet but great for your face too!

## How Champion have adapted

Champion are a very popular company that have grown over the years and are still growing. The company was originally called Knickerbocker Knitting by Abe and Bill Fainbloom in 1919. Champion produced uniforms for all NBA teams during the 1990s and some NFL teams during the 1980s and 1990s. Champion was the official outfitter for the USA basketball men's senior national team, who competed in the historical 1992 Olympics. Reverse weave is a popular fabric that is found in a champion hoody's.

Highly popular celebrities have been spotted wearing Champion gear including Kylie Jenner. Recently champion have Collab with some of the big names such as Supreme to bring some new cool clothes.

## All about Christian Dior

Christian Dior was a French fashion designer. Best known for his company called Dior, which is now owned by Groupe Arnault. He was born on the 19<sup>th</sup> of January 1905 in Granville France and then later died on the 24<sup>th</sup> of October 1957. He was one of 5 sons of a wealthy fertiliser manufacturer called Alexandre Louis Maurice Dior (his father) and his wife, Isabelle. Christian was sent off to Paris to study and spent some of his time with different artists. He founded the house of Christian Dior on December 16, 1946 at 30 Avenue Montaigne Paris. Dior ended up being one of the most influential fashion designers of the late 1940s and 1950s. Christian Dior influenced fashion after World War II with the gorgeous silhouette of his voluptuous New Look. Although his parents had hopes of him becoming a diplomat, Dior was artistically prepared and began to sell his sketches on the street to make pocket money.

### The "Chérie"

One of his most famous dresses is the "Chérie" made in the summer/ spring of 1947. The "Chérie" exemplifies the "New Look" in all its amazing elements: sloped shoulder, raised bustline, narrowed waist, and a monumental volume of skirt falling away from a padded hipline to below the calf and the incredible, blue dress is made mostly from silk.

Following the onset of the Great Depression in 1929, the death of both his mother and his brother, and the collapse of his father's business, Dior was forced to close his art gallery. He then went to work with fashion designer Robert Piguet until he was called up for military service in 1940.

## Modern Dior

Modern Dior includes watches, bracelets, bags and much more. The watch above is currently selling for the price of £12,500.00 and is made from 18 carrot yellow gold, beautifully shiny diamonds and lapis lazuli gems.

## Diors contribute to the fashion world

Dior's contribute to the fashion world, Dior has gone fully worldwide, it has reached all over the world. Aswell as men and women's fashion after the war, people could keep up to date with the modern fashions and other designers and brands have tried to copy his designs.

## DO YOU WANT TO KNOW ALL ABOUT BMX?

BMX riding is a racing sport popular with girls, boys, adults and children. BMX riding, (BMX stands for Bicycle Motor Cross) is fun but can also be extremely dangerous so you have to be careful and wear protective gear to keep you safe. BMX tracks have a lot of jumps, and injuries happen often such as falling off or hitting a jump and coming off and hitting your face. This is why you should always wear a helmet, as well as gloves, kneepads and goggles.

BMX riding can take place on dirt and tarmac. Some of the best BMX riders are professionals (known as pros), which means they earn money from the sport. Stunt pegs are very useful for when you are doing insane tricks such as: a 180, a nose manual, a peg grind and much more cool tricks.

The new 2021 BMX called the Jet 7 is the newest BMX out now. This BMX has a 20" frame and is fantastic for doing tricks. It costs £200. Stunt pegs and a shiny multi coloured paint job are included.

## **Chamiah Dewey designs clothing for people with dwarfism**

Chamiah Dewey

Chamiah Dewey is an amazing twenty-two year Old woman who is launching a collection of clothes Specifically designed for people with dwarfism this Summer.

Chamiah is extremely passionate about what she does and how she wants it to develop in the future. As well as designing clothes for little people, Chamiah is also thinking of adapting her business for people with different types of disabilities. "I know how difficult it is for people with disabilities because they might not find the size as in it might be a bit big or maybe a little bit small" She also uses a stretchy material so then it easier for people to put on and take off.

From the age of five to six, Chamiah has always dreamed of being a fashion designer. Currently, Chamiah studies at the London School Of Fashion, whilst also working as a learning support assistance at a boys school in Wimbloden.

"Always be happy for who you and what you do because that is what brings life together."

If you want to achieve something then put your mind to it and hopefully you will achieve it just like the young lady herself Chamiah Dewey.

If you are a person with dwarfism then have a go with Chamiah`s business and that will probably make you comfy and you will feel like yourself.

## **The issue with photo shopping**

There are many issues facing the fashion industry these days, but there is one of them that many people and celebrities are not standing for and that is: photo shopping.

Photos will be taken and tweaked and people think that is completely fine, but celebrities like Zendaya and Kate Winslet are speaking about changing their whole body and the way they look.

Zendaya has recently been in a photoshoot and was very happy with the outcome of the photos. But when she looks at the magazines she saw loads of changes in the way she looks. As you can see they have changed all of her body to make it look slimmer and changed the color of everything' and made her leg an unrealistic color compared to her other leg. This is a more recent pictures of Zendaya who has been photo shopped to look like she has a 'perfect body'

Kate Winslet also stood up and talked about this issue in newspaper stated 'DON'T AIRBRUSH MY BULGY BITS' Kate was starring in a movie and in one of the scence the director insisted on airbrushing her tummy but Kate insisted on not doing it.

These are the problems we are facing today and we think we should change them.

## Latest Model from Tesla

Buying a Tesla has just become a whole lot cheaper, making it a possibility for more and more people to own one of these fabulous cars.

Let us take a closer look at what the car offers.

The new updated Tesla model 3 has excellent braking system and sports handling and can go up to 0-60MPH within just over three seconds, which is extremely good news if you like speed. The model has 322 miles of all-electric range, which means that on average if you are travelling at 70 mph, you will be able to go for 293 mile without having to charge.

This fabulous self-driving car is available for just £42,500, which is incredibly cheap in comparison to other Tesla models.

## 2021 New Release Cars

Experience the thrill of driving every time you read about incredible cars, devoted exclusively to the greatest performance cars in the world. If you're passionate about performance cars then the incredible car magazine is your ultimate read.

### BMW i4

As the first all-electric Gran Coupé, the BMW i4 combines next-level performance with modern comforts to deliver a truly outstanding driving experience with a price range from around £50000.

Equipped with fifth-generation BMW eDrive technology, the BMW i4 M50 delivers up to 544hp, while the BMW i4 eDrive40 offers up to 366 miles in range. Add to this the spacious interiors, and the new BMW i4, which is arriving in November 2021, and quickly becomes the perfect companion for any journey. The BMW i4 also has a top speed of 140mph.

### Ford F-150

The all new F-150 is purpose-built from the ground up redesigned to be the toughest, most productive F-150 ever. This is what happens when you merge premium-grade muscle with finely tuned intelligence and design. The 2021 North American Truck of the year for a relentlessly tough, high-strength, military-grade, aluminium-alloy body and torture-tested high-strength steel frame with new tech to help you work smarter and harder. An unthinkable amount of improvements to automotive technology have been made, making cars easier to drive and operate, safer, and perform better. The result being cars have become a very valuable part of our lives today, and cars will continue to get better with technology and machinery.

## **Light House**

*The dull clouds were illuminated by the bright beam of the light house and the luminous, vivid moon dancing in the sky, exposed the jagged, notched rocks and the danger they could bring. The waves were crashing against the cliff face making a lullaby sound throughout the Liondoor Village, sending little children to sleep.*

*The small cottages in Liondoor, had witch styled roofs with wooden shutters, it was all calm except from one place-the pub- because all the fishermen were celebrating coming home from a long weekend fishing. With pints of beer in their hands the fishermen were bellowing 'HORAY' at the top of their lungs. Again and Again and Again.*

*On that night tough, a storm started to develop to the west and instead of sending the children asleep to the sound of relaxing crashing waves they were kept awake by the frightening sound of dramatic waves: it sounded like a horrific monster rising out of the waters depths.*

*All of a sudden, 'BOOM' Jeff Potter (the light house keepers) ears perked up, something was off. Jeff ran up the 15 flights of spiral stairs, to be stunned by the devastating sight of smoke whirling around the mechanism. He stood there for a second trying to process what had happened; the thick black smoke started to make it hard to see something just a meter away.*

*Jeff managed to see himself through to the immensely large glob, which fisherman rely on as there light source at nights like these, but for some peculiar reason the light was not ignited, instead it was burned out and cold. Trying not to breathe in all the smoke, Jeff managed to pick up the globe, but in the blink of an eye terror struck again: Jeff tripped over his tool box that he stupidly left there the night before.*

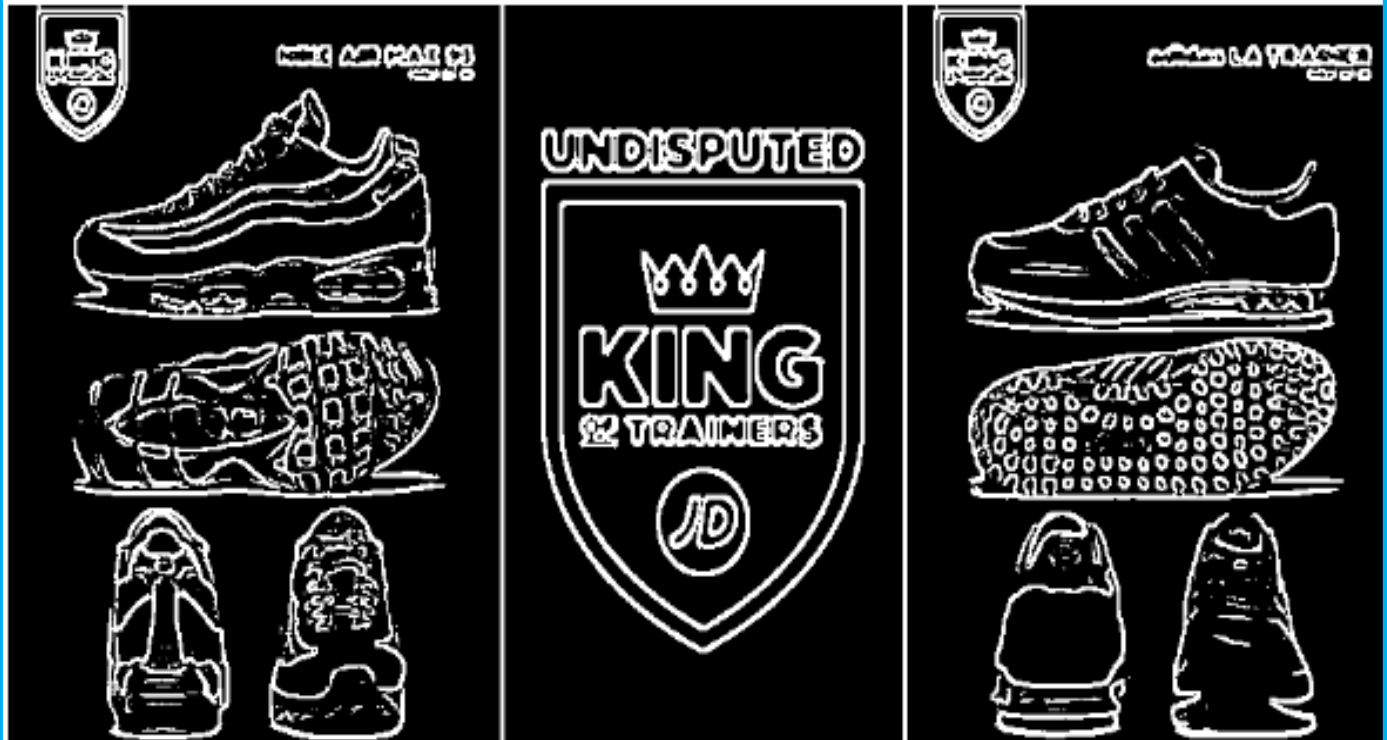

**'SHATTER'**

*Glass everywhere. Jeffs face was filled with terror and he turned as pale as the snow on a brisk winters morning, but his face got even pale as heard the sound of a big boats air horn.*

**'CRASH'.....**

## What is so special about the Nike Vapor 14?

There are many football boots out there but these boots have been quite causing a stir. We have been looking at what makes them so special...

They were inspired from a dragon fly to create a different front to the boot. Nike used a material that is called Vapor Poised and it is made of four unique layers.

On the inside there is a soft and almost swede like material called VLQ which is there to make the boot feel soft on your foot. On top of that you have a material called titan which gives the boot structure and stability and some holes for your foot to breathe. After that there is a grid like mesh component, which is a flattened yarn that has been melted onto the upper part of the boot, that create more grip and control between a player's foot and a ball. Finally, you have what Nike call dragon material, which is a very thin layer of silicone that keeps your foot dry.

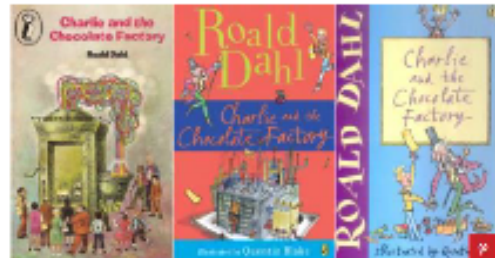

### 3 incredible classic book ideas for your younger siblings this Christmas

If your younger brother or sister haven't already read "Charlotte's Web" by Dick King-Smith then this is a must for this Christmas. This story gives children the opportunity to discover an amazing world in which animals can talk and a spider and a pig form a wonderful friendship. In true Dick King-Smith style, the book also helps to develop a child's vocabulary and is therefore a great present for someone who likes to be challenged.

The next incredible book you could buy for your sibling is "Charlie and the Chocolate Factory", written by Roald Dahl over fifty years ago. Even if you have watched the film, you need to read the book because the descriptions are incredible and bring the characters to life. The story is about a few children, who win golden tickets to visit the magical chocolate factory and see how the chocolate process works. Incredibly, it follows their tour around the factory, which is sometimes funny and even dangerous. A highly recommended story.

The Harry Potter Wizarding World collection is extremely popular amongst most children; it has over eight books in the series, which have even been made into movies too. The first book is Harry Potter and the Philosopher's Stone, which introduces the four main characters: Harry, Ron, Hermione and Draco Malfoy. This book is exceptionally funny in most parts of the book. You must buy it.

## TikTok cooking recipe has taken the world by storm

Most people have probably heard of the world wide platform called TikTok. It has many different things to look at ranging from sport, make-up and cooking. We all know that loads of people throughout the world love cooking, so my team and I started the search for the most trendy and most unique recipe; we came across a recipe with over 750 million views! It was created by an American blogger called Jenni Häyriinen. You are probably really eager to find out what could possibly get that many people excited about cooking some food? Well it's a Feta & Tomato Pasta and this is how you make it.

Firstly, place a block of Feta and a good handful of cherry tomatoes into an ovenproof dish. Add olive oil, chilli flakes, salt, black pepper and garlic and then bake at 200c for 20 mins. Remove from the oven and stir the ingredients until the tomatoes are broken down and mixed in well. Then add plain cooked pasta and lots of chopped fresh basil. This is a quick, easy and tasty alternative to plain pasta, which is not only delicious but also healthy and filling. We totally recommend you giving it a try!

## THE NEW XBOX SERIES X

The Xbox Series X isn't an essential purchase, at least not right now. That isn't to say it's not a fantastic piece of hardware, with a lot of potential as an incredible as a next-gen console, but it's missing the sort of wow factor we've come to expect at the start of each new console generation. From the familiar UI to the lack of games that take full advantage of the system's ability, it's easy to feel slightly underwhelmed at first.

That being said, the new Xbox is super-fast, practically silent, and delivers the kind of impressive performance that we've previously only seen from high-end gaming PCs. This ensures that games – both old and new – look and perform better than they ever have before, and provides a solid foundation for Microsoft to build upon in the years to come.

But unlike a high-end gaming PC, which tends to cost thousands of or pounds, Microsoft has packed a considerable amount of power under the Xbox Series X's monolith-esque frame for just \$499 / £449 / AU\$749. The end result is a console that's not only technically impressive, with drastically reduced load times and significantly improved visual fidelity in games, but one that is competitively priced. The deal is sweetened further thanks to numerous quality-of-life features that make your gameplay experience far more enjoyable like Quick Resume and FPS Boost, which we'll discuss in further detail below. With the incredible design of the controller

*New Vera Wang Princesses Perfume*
