

### Please, Oh Please, Don't Pollute our Sea

The ocean is a great place to go for a swim,  
But leaving plastic behind is not a win.  
You will find bags and plastic,  
Crisp packets, juice bottles and elastic.  
Please, oh please, don't pollute our sea,  
Make a difference for you and me.

Visit the ocean to enjoy the pools of rock,  
Don't dump your plastic in our docks.  
Together we can stop the pollution,  
Reducing your plastic use is the solution.  
Please, oh please, don't pollute our sea,  
Make a difference for you and me.

To make our world better scientists are on the trail,  
We don't want cans and nappies in the stomach of a whale.  
We can all do more than just try,  
Don't make it our fault, our fish will die.  
Please, oh please, don't pollute our sea,  
Make a difference for you and me.

### STOP THE DROP NOW!

I went for a stroll along the beach,  
And found a task I'd need help to complete.  
Turtles washed up on the beach,  
Everyday rubbish, bottles of bleach.  
Carrier bags, plastic straws, nappies,  
Makes animals and environment very unhappy.  
Fish trapped in cans, caught up in net,  
Bellies full of waste, starving to death.  
Chemicals in the sea,  
Will poison you and me.  
The ocean's becoming a rubbish dump,  
So we need to reduce the sewage we pump.  
Pollution and waste goes down the gutter,  
Fills the sea and the water.  
So when you throw your rubbish away,  
Make sure animals survive and don't get in your way.  
STOP THE DROP NOW!
