

## Short Burst

To begin with, look carefully at what you see in the short picture.

- Discuss with an adult or make a list of the things you see and what is happening in the picture?
- Use your senses (see, hear, touch, and smell) to come up with some interesting adjectives to describe the picture.
- What do you think has happened here? Where have they been? Where are they going? Why are they there? Why are they running?

Look at the list of genres below and choose one that you would like to use as your base for writing about this picture.

- **Sense poem** - Imagine you are there watching the horses? What is it like? I can hear ...I can see ...I can feel ...
- **Story** - Could the horses be the main characters? Have they been on an adventure? Are they looking for something?
- **Newspaper report** Horses on the loose? Horse's run wild? Horses are freed?
- **Non chronological report (fact file)** Could this inspire a fact file all about wild horses? If so, what information are you going to include? You may have to do some research for this.
